ABOUT

I have a passion for innovation and challenging projects. My background in industrial design gives me a rare insight into how people use things in their daily lives. Whether it means sketching out a solution to a complex problem, or offering unique perspective on user experience, I can offer something different to your digital experiences. My name is Jeremy Bunting, and I'm eager to work with you to make your projects shine.

EDUCATION

Wentworth Institute of Technology, Boston, MA - Bachelor of Science Degree in Industrial Design (BIND) 2006, Dean's List

EXPERIENCE

Software Engineer, Vynyl.; Boise, Idaho (remote) · Aug. 2018 - Present

- Senior-level contributor on complex single page apps built in React/Redux, Vue/Vuex, Django, mobile & microservices
- Conducted technical assessments for legal exhibits, wrote technical review reports on forensic results
- Served on hiring team across multiple disciplines, provided input on technical assessments from candidates
- Clients included those from fintech, medical & product teams around the world
